To Whom It May Concern

In regards to the proposed plan to develop a youth program on the island of Virgin Gorda; I here by pledge my support to such plans, because once in motion and operated properly I believe it will be a huge asset to the youth, the parents and the community of Virgin Gorda.

Any structure that will enable us to network the resources of our community to better enhance and sharpen our youth's abilities will be greatly appreciated. From my understanding while sharing with Ms. Marianne Larned, Executive Director of the Stone Soup Leadership Institute this program has a track record and has been proven to work.

It is my desire that we all see these plans come to fruition to further augment and develop our youth body on the island of Virgin Gorda.

Yours Faithfully,  
Gregory George  
Pastor
